Chloe Polk

Technical Product Manager / Product Designer / Ecommerce Operator

St. Louis, MO • 253-313-8916 • chloe@hichloe.me • hichloe.me • LinkedIn • GitHub

Professional Profile

Product manager and designer who came to software through the operational side of ecommerce. Built six functional enterprise AI demos for third-party logistics (3PL), retail, and logistics organizations, working directly with clients from discovery through product demonstrations and real-time iteration. Previously managed Shopify and TikTok Shop workflows for 1,800+ products, Pokémon-department advertising, and social commerce communities reaching 275K+ across platforms. Brings practical operator empathy to technical product decisions.

Core Capabilities

Product & Design Customer discovery, problem framing, functional prototypes, UX and interaction design, Figma design systems, design tokens, AI-agent experiences, live iteration, developer handoff

Ecommerce & Growth Shopify, TikTok Shop Seller Center, catalog operations, listing compliance, sales reporting, flash sales and promotions, Meta advertising, livestream commerce, community management

Operations & Delivery Cross-functional collaboration, Jira, Confluence, vendor and stakeholder coordination, client demonstrations, QuickBooks Online, documentation and workflow improvement

Professional Experience

Prosera, Inc.

Apr 2025 – Present

Technical Product Manager - UI/UX Specialist | Enterprise AI

- Built six fully functional enterprise AI demo prototypes for global 3PL, retail, and logistics organizations, combining Figma product design with Cursor and AI-assisted development.
- Participated in initial client meetings, discovery and presentations; translated unscripted feedback into interaction flows and functional demonstrations, sometimes building and iterating from scratch live during calls.
- Demonstrated a tailored solution for a global logistics company, supporting an engagement that advanced into a proof of concept (PoC).
- Established reusable Figma components, variables, tokens, and light/dark themes for client-facing interfaces; translated decisions and feedback into Jira and Confluence work products.
- Worked across commercial and engineering teams to refine workflows, prototype behavior, and evaluate AI-agent/prompt outputs against customer scenarios.

Maintenance Man Unlimited

Sep 2024 – Apr 2025

Office Administrator | Construction & Property Management

- Secured the company's first property-management client partner through direct outreach; helped launch a service line that completed and invoiced approximately $20K in maintenance work for that partner in its first month.
- Coordinated service, scheduling, contractors, and communications for a partner overseeing 150+ properties; tracked approximately 200 monthly QuickBooks Online transactions.
- Handled operational documentation including contracts, invoicing, payroll, service requests, and vendor/client follow-through.

Professional Experience / Continued

Going Twice, Inc.

Jan 2021 – Sep 2024

Ecommerce Operations & Livestream Sales Lead | Promoted to Team Lead in 2023

- Managed Shopify and TikTok Shop Seller Center catalog operations for 1,800+ products, including listings, pricing, inventory, orders, and adherence to platform rules and guidelines.
- Used seller-side reporting to track sales and coordinate flash sales, discounts, giveaways, and promotional activity; adapted catalog listings to marketplace requirements.
- Hosted and led livestream selling on Whatnot, TikTok Live, Fanatics Live, and eBay Live, averaging approximately $9.5K in sales per 10-hour broadcast.
- Managed the Pokémon department's approximately $615K Meta advertising budget, coordinating campaign execution and creative.
- Produced daily short-form clips, educational posts, and livestream promotions; helped build and moderate Discord communities and run interactive customer giveaways.
- Helped build a combined 275K+ audience across TikTok, Whatnot, Instagram, Fanatics Live, and eBay Live; coordinated operations during company growth from 8 to 50+ employees.

Lincoln Property Company

Jun 2019 – Jan 2021

Service Coordinator | Accounting | Military Housing, Joint Base Lewis-McChord

- Coordinated high-volume resident service requests, maintenance dispatch, vendor communication, escalations, and completion follow-ups.
- Supported accounts payable, vendor files, compliance audits, and budget documentation for 70+ vendors within a $46M+ military-housing operation.

Selected Product Work

Meridian | AI-assisted operations decision-support case study

- Independently designed an anonymized, industry-recast case study informed by lessons from confidential enterprise AI work; the hospitality scenario is illustrative, not a deployed customer product.
- Defined a signal-to-incident-to-action product lifecycle, transparent evidence and confidence states, human approval controls, and a reusable UI system with 23 components and 63 variants.

hichloe.me/meridian

Typeshelf | Shipped browser-based font library product

- Designed and built a privacy-first local font viewer in Next.js and TypeScript, with in-browser file parsing, specimen controls, categorization, and favorites; no font uploads required.
- Addressed 12 documented accessibility findings and validated light/dark themes, interaction states, and contrast in a publicly accessible live product.
